Dear Senator,

I am writing to request your support for Senate Bill No. S3741. This bill amends the Workers' Compensation Law, in relation to the application of the NYS Medical Treatment Guidelines (MTG) for care of injured workers. I was a patient under the New York Workers' Compensation system before the implementation of the December 1, 2010 MTG's. As a result of the new guidelines, my health care has been severely compromised, and subsequently I am suffering from greater amounts of pain and disability. Furthermore, I am now unable to see the doctor of my choice regarding my condition because the MTG did not address the issue of patients suffering from chronic care. It is for this reason that, as a patient and New York State resident, I respectfully request that you support S3741 to restore the care that was previously available to Workers' Compensation patients like me prior to December 1, 2010.

Thank you for your time and consideration.
